Introduction

This manual is intended to help guide you through Student Vote Day at your school. On the following pages, you will find suggestions on how to coordinate the vote.

There are several possible methods for running Student Vote Day at your school, but in all instances, widespread participation is encouraged. By practicing now, students will be more inclined and prepared to participate in the voting process in the future.

Here is a list of items you will need for your Student Vote Day:

- Ballot boxes**
- Voting screens**
- Ballots**
- Statement of the Poll (reporting form)**
- Seals or tape (if desired)**

You may wish to use your own seals or tape for securing the ballot boxes to ensure they are not tampered with during the voting process.

Student Vote Day

You can choose to hold your Student Vote Day for the 2023 Manitoba provincial election on any day leading up to and including election day.

All results must be reported by 4:00pm CT on Tuesday, October 3 (election day). Please refer to the *Confidentiality Note* regarding results found on page 15.

Adhering to the reporting deadline is necessary in order for CIVIX to include your school's totals in the preliminary results shared on election night.

Schools that report their results after the deadline will be included in the final tallies shared in the days following the election.

Voting Methods

The following voting methods have been designed to assist in the organization of your vote. You may choose to use one or more of these suggestions or develop another method that works for your school.

Method A: VOTE BY CLASSROOM (stationary voting scenario)

Teachers take their classes to the voting place at pre-set times throughout the day. An arrangement in which classes are called down by class or grade is suggested to ensure that students do not have the opportunity to vote more than once. When students arrive at the voting station, designated election officials instruct them on where to line up to cast a ballot. This method of voting allows for an authentic experience of visiting a voting place. Consider offering additional voting stations in order to process the number of students in the time allotted. Alternatively, consider arranging for classes to vote over a number of days so that all students have the opportunity to participate.

Method B: VOTING ON OWN TIME (stationary voting scenario)

The voting place is open all day, and students are only able to vote on their own time. When students arrive at the voting place, designated election officials tell them where to line up to cast a ballot. While it is the most authentic, this method of voting often leads to a lower voter turnout and a surge of voters in short periods, such as between classes and during lunch. Consider offering more voting stations in order to be prepared for high voter traffic.

Method C: HOMEROOM VOTING (in-class voting scenario)

Before the school day begins, distribute ballots to all participating teachers and classrooms. At the beginning of homeroom class, each teacher hands out the ballots to students in their class. Students vote immediately, and the teacher collects the ballots shortly thereafter. Designated election officials collect the ballots from each class before the end of the period, using either a ballot box or envelope. All ballot boxes and/or envelopes are then taken to a secure room, where the ballots can be counted immediately or later in the day. This method makes voting very quick and easy, as it is completed in just a few minutes at the start of the day. However, students do not get the authentic experience of visiting a voting place. Consider providing an alternative voting option for students who do not have homeroom at the beginning of the day.

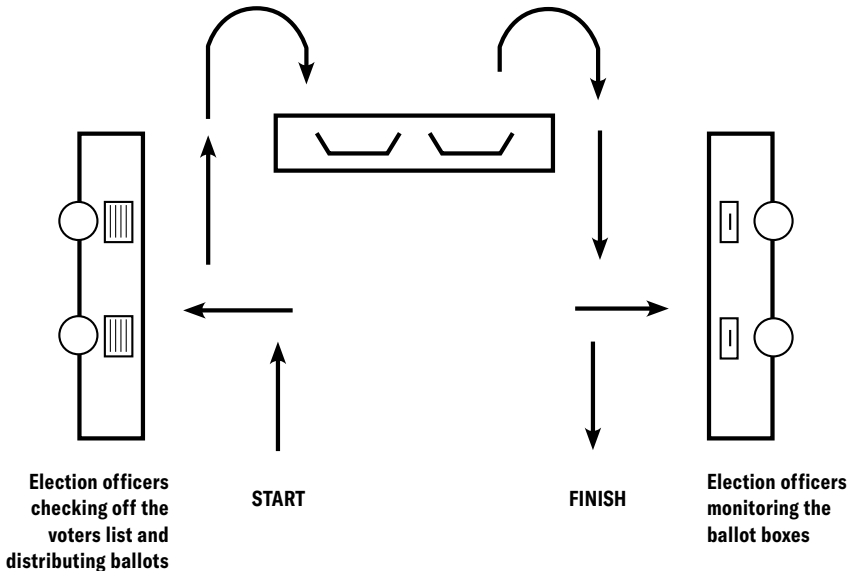

Method D: MOBILE VOTING STATION (in-class voting scenario)

During the first period of the day, designated election officials take mobile voting stations from classroom to classroom. Generally, this method works well with three election officials per group: one voting officer and two election officers. When every class has had an opportunity to vote, all ballot boxes are taken to a secure room, where the ballots can be counted immediately or later in the day. This method of voting eliminates long lines, delays, and the disruption caused by moving an entire class to a voting place. Plan ahead so that there are enough mobile voting stations for all students to participate within one period of the day. It is suggested that you allow approximately 15 minutes for the mobile voting station to visit each classroom.

Layout of a Voting Place

If your school chooses to use a stationary voting station for multiple classes, we recommend that you select a spacious, ventilated and accessible location such as a library, empty classroom, gym, or cafeteria. Make sure the location is well-known and students are informed of the location before Student Vote Day. Where circumstances allow, we suggest the following area layout to process a maximum number of students quickly for optimum efficiency.

- Set up desks or tables in a 'U' shape around the perimeter.
- Election officers sit along one side to process voters and distribute ballots as they enter.
- Voting stations are situated on the next bank of desks/tables. Voters go behind the voting screen or desk and mark their ballot.
- Once they have voted, students take their ballot to the tables/desks lining the third side, where election officers verify the ballots and monitor the ballot boxes.
- The entrance should be along the fourth 'empty' side, where there are no tables, to allow easy access and queuing without disrupting the flow of students between tables.

Suggested Guidelines

Roles for Student Vote Day

We strongly encourage students to take on the roles of election officials so that they have a greater experience of the voting process. The following roles are suggested for Student Vote Day:

- **Voting officers** are the officials responsible for conducting the student election and counting the votes. They are the only election officials allowed to handle the ballots during the counting process.
- **Election officers** are the individuals who staff the voting place. They are responsible for checking ID (optional), crossing voters off the voters list, distributing ballots, and collecting ballots. When the voting process is complete, the election officers assist the voting officers by totaling the ballots counted and filling in the vote tally sheet.
- **Scrutineers** are generally individuals appointed by a candidate to act as an observer of the election process. In the case of the Student Vote program, the Team Leader can appoint a scrutineer for each party or candidate. Scrutineers may also be present when ballots are counted, but they may not handle the ballots in any way.
- **Student Vote Team Leader (an educator or administrator)** is the official liaison between the school and CIVIX and in charge of overseeing the entire process.

If you proceed with having students take on the roles of election officials, consider providing identification badges (refer to page 18 for templates).

Creating & Using a Voters List

A voters list is recommended when using a stationary voting scenario to provide authenticity and to ensure that students do not vote multiple times. A voters list is also an option for in-class voting scenarios.

This list will include the names of all students. This list can usually be provided from the main office upon request of a staff member. An extra copy of the class attendance sheet is a simple way to create the voters list for each class.

As with an actual voters list, when a student enters the voting station and/or is handed a ballot, the election officer will cross off the name of the student to indicate that they have participated in the election.

Ballots

Student Vote ballots are printed and distributed after the close of nominations and once the candidates have been confirmed. The ballots will include the names of the local candidates running in your school's electoral division. Please make sure you have provided the correct electoral division information upon registering or have updated this information prior to ballot printing.

Contact CIVIX immediately if you believe you received the wrong ballots or there is an error.

It is strongly recommended that the Team Leader (or an appointed election officer) initial the reverse side of each ballot before the commencement of Student Vote Day. This helps to validate the official Student Vote ballots for your school and ensure a secure voting process.

Student Vote Election Requirements

Regardless of the voting method you select, the following is a list of requirements for Student Vote Day.

Before You Begin

- No campaign materials are permitted at the voting place or on election officials. This rule is to ensure a completely impartial environment.

Preparing the Ballot Box

- Once the ballot box is folded together, the voting officer will show the inside of the empty box to the election officers and scrutineers so that all of the election officials can verify that the box is empty;
- Next, the ballot box will be sealed using seals or tape (optional);
- The seals or tape will be initialed by the Team Leader to show that they have authorized the ballot box for use.

Receiving a Ballot

- When a voter requests a ballot at the voting station, the election officer will fold a ballot into thirds, thereby concealing the side with the candidates' names from observers;
- The election officer will verify that the ballot has been initialed by the Team Leader (or appointed voting officer) and will hand the folded ballot to the voter;
- The voter will take the ballot behind a voting screen to unfold the ballot in private, mark the ballot as they choose, and refold the ballot before leaving the voting station;
- The voter will take the marked ballot to the election officer monitoring the ballot box;
- Without unfolding the ballot, the election officer will verify that the Team Leader's initials are visible on the ballot;
- Once verified by the election officer, the voter will put the ballot in the ballot box;
- In the event that a voter tears a ballot or makes a mistake on their ballot, the voter may return the ballot and request a new one. The first ballot will be declared a spoiled ballot, and the voting officer will write 'spoiled' on the back of the ballot and keep it to the side.
- A voter can choose to decline their ballot if they do not want to vote for any of the candidates, but still want their vote to be counted. The voter will write the word "declined" on the front of their ballot (the side with the candidates' names), refold the ballot and place it in the ballot box.

Counting the Ballots

- If using seals/tape, the Team Leader will verify that each ballot box is still sealed by the seals or tape that they initialed before voting opened and that neither the box nor the seal has been tampered with;
- The tape will be broken by the voting officers, who will open the box to count the ballots;
- Scrutineers may be present to observe that the process is completed fairly.
- The ballots will be sorted by the voting officer based on two distinct categories.

1 - Ballots NOT placed in the ballot box will be separated and counted as such:

SPOILED: A ballot that was mistakenly marked or torn and exchanged for a new ballot. The election official has written “spoiled” on the back of the ballot.

2 - Ballots placed in the ballot box will be separated and counted as such:

VALID: A ballot properly marked for one candidate (see pg. 13).

REJECTED: A ballot not marked properly and declared invalid by the Voting Officer (see pg. 14).

DECLINED: The word “declined” was written on the front of the ballot (the side with the candidates’ names) instead of selecting a candidate.

- Any questionable ballots will be left to the Team Leader to categorize according to the criteria describing a properly marked ballot;
- Ballots will not be counted again unless the Team Leader orders a recount to confirm the totals;
- Consider using a Tally Sheet to assist in the tabulation of votes (page 20).

Statement of the Poll

- The Statement of the Poll is an accounting of the ballots for Student Vote Day at your school;
- This accounting includes the number of valid, rejected and declined and spoiled ballots;
- The Team Leader will verify the results and sign off on the form;
- This form will constitute the official results of the election at your school.

TEACHER NOTE

Please keep the Statement of the Poll form for one month after the Student Vote parallel election in case your results need to be confirmed by CIVIX.

Properly Marked Ballots

Valid Ballot

To be counted for a candidate, a ballot must clearly indicate the voter's choice. A voter may mark their ballot in any way that they want in the circle next to the name of the candidate.

The following examples have been provided to demonstrate a properly marked ballot:

- The voter uses a checkmark;
- The voter marks an X;
- The voter uses another type of mark;
- The voter shades the circle.

YASMIN YELLOW Independent / Indépendent	<input type="radio"/>

Rejected Ballot

A ballot will not be counted towards any candidate when it does not clearly indicate the voter's choice(s).

The following examples have been provided to demonstrate a rejected ballot:

- The voter marks the ballot for more than one candidate. This applies even if different symbols are used for different candidates, such as a checkmark for one candidate and an 'X' for another;
- The voter marks the ballot in a way that identifies themselves;
- The voter leaves the ballot blank.

Reporting Results

Step 1: Select your method of reporting

A Report by phone

Contact the CIVIX team at 1-866-488-8775 to report your school's results.

B Report online

Please visit www.studentvote.ca/vote/mb2023 and follow the prompts to submit your results.

Step 2: Enter/provide your School ID and Poll Code

Your school ID and poll code are located on your Statement of the Poll form. They will allow you or a CIVIX team member to access your school and electoral division information.

Step 3: Report your results

You will be asked to report the number of votes for each candidate and the number of rejected and declined ballots. Please review the definitions on page 11.

CONFIDENTIALITY NOTE:

We require that you and your students keep your school's Student Vote results confidential until the end of voting on election day.

This confidentiality is very important to ensure that Student Vote results are released at the appropriate time and do not interfere with the general election in any way. There has been some concern that an early release of results could influence voting decisions by electors.

Any school that releases the results of its election early will be removed from the Student Vote tallies and will be indefinitely suspended from participating in future programs.

Media Relations

While it is not necessary to contact the media regarding your Student Vote Day, media engagement is an option that you may wish to consider. Always remember to consult your school authority or administration's policy regarding members of the media on school property.

Media outlets may be interested in publishing photos of your Student Vote Day or setting up interviews with you or your students. If you are interested in media attention for you and your students, please contact the CIVIX team to be put on a list of schools for media requests. You can contact CIVIX via email at hello@civix.ca or by phone at 1-866-488-8775.

Alternatively, you and your students can contact members of the media and make your own arrangements:

- Consider developing a working relationship early on – reporters tend to enjoy tracking the progress of one school or class in their community;
- Consider asking editorial staff to print articles or op-ed pieces written by students.
- Offer to share your own high-resolution photos or videos for publication.

We recommend keeping CIVIX aware of all of your media activities. Always ensure media releases have been signed in advance by any students (or their parents/guardians) in the photos.

Please remember that no matter how close a relationship you form with the media, you cannot divulge the results of your school's election before the close of official voting.
